

Viva Care

Special gentle detergent for wet-cleaning of sensitive textiles

Viva Care is used for extremely gentle care of textiles made from wool, silk and viscose along with a very high soil-removal capacity. In the wet-cleaning process, the sensitive albuminous and cellulosic fibres are best protected from shrinkage and felting. The product can be used in all machine systems.

Physico-chemical data:

Consistency:	homogeneous liquid	
Total alkalinity:	n.a.	(1 % solution)
Active alkalinity:	n.a.	(1 % solution)
pH-value:	5,5	(1 % solution)
Density:	~ 1,05 g/ml	(20 °C)

Recommended Dosage:

Per kg dry laundry at a bath ratio of 1 : 4

Hardness Range	Water Hardness °dH	1-Bath-Procedure
1 - 3	0 - over 14 soft - hard	8 - 15 ml / kg
Output per kg of product with max. dosage in hardness range 1		63 kg

The information in this technical leaflet is provided on an advisory basis which does not imply any liability on our part. For further details see our relevant safety data sheet.

Application:

For optimum fabric care, dose **Viva Top** or **Viva Protect** to the Last Bath.

For individual application and process recommendations, please refer to our Product Manual for Professional Laundry.
